

PM for Alcohol

THS has an alcohol- and drug policy that is established by the Student Union Council and is applied within the full THS organisation, including the W-chapter. This document is to be considered as an addition to the THS alcohol and drug policy and is underlying Sweden's laws and other rules on alcohol by KTH and THS.

Alcohol paid by the chapter

None of the chapter's money, either for individual occasions or in its entirety, shall be based on subsidizing alcoholic beverages for chapters members. For this reason, it should only be possible to offer non-alcoholic tickets at events. The price of non-alcoholic tickets should not be increased to subsidize alcohol tickets.

In cooperation with external parties

When the chapter organizes events with external parties, and the chapter can not set its own prices, it should be ensured that the non-alcoholic option is always cheaper than the alternative with alcohol.
