

PM for publication of information in Swedish and English.

KTH is a University where a large number of students are international students. Every year the W chapter receives about 20 exchange students. This PM deals with the availability of information for the international chapter members and aims to make the W chapter more inclusive for all its members.

Publication of information

The chapter shall work towards being more inclusive. This will be enabled by making information from the chapter board and chapter committees available to the international students by translating it to English. All information that may be considered or which is in any way not exclusive to Swedish students should be published in Swedish and English.

Meeting protocols, like chapter meetings protocol, chapter board meeting protocols, and Presidents of committees meeting protocols, shall be exempt from this. In cases where translations are not available, it should always be clear who can be contacted for translation.
